

OXNARD AIRPORT

CONNECTOR TAXIWAYS A & E RECONSTRUCTION PROJECT

The FAA has notified the County of Ventura Department of Airports that funding will be released for the Oxnard Airport Connector Taxiway A and E reconstruction project. The project is expected to begin on September 12, 2022 and span over 59 calendar days with an anticipated project completion date of November 9, 2022.

Oxnard Airport will remain **OPEN** for normal daily operations utilizing Runway 7-25 and Taxiway Connectors B, C, and D. Reconstruction of Taxiway A and E will occur overnight and Runway 7-25 and Taxiway Connectors B, C, and D will be closed each night to facilitate construction activities during the hours of 2200 to 0600 and will reopen each morning. Please refer to the table below for more information about the planned closures for Taxiway A and E. The construction start date, closure dates, and taxiway project completion date will be updated as the start date nears.

The reconstruction of Connector Taxiways A and E will include the removal of the existing pavement section and the full depth construction of the new pavement section, including subgrade stabilization to improve pavement longevity. This project will also consist of the construction of taxiway shoulders, installation of underdrain and storm drain infrastructure, improvements to electrical infrastructure, the relocation of the FAA power line, and application of pavement markings. The relocation of the FAA power line will take place during the nightly construction activities and will not require any additional taxiway closures.

COUNTY of VENTURA
Department of Airports
